School of Doctoral Studies (European Union) Journal (SDSJ) publishes research analysis and inquiry into issues of importance to the academic and scientific community. Articles in SDSJ examine emerging trends and concerns in the areas of business management, economics, engineering, technology, natural and social science. The goal of SDSJ is to broaden the knowledge of students, academicians and society in general by promoting free access and provide valuable insight to human knowledge related information, research and ideas, presenting what the School of Doctoral Studies of the European Union's Faculty Members may consider as relevant contributions to human knowledge. SDSJ is an annual publication and all articles are peer-reviewed. SDSJ will be published annually (one volume per year) by the IIU Press and Research Centre, A.C. for the School of Doctoral Studies of the European Union, hosted at the Isles Internationales Université (European Union) in Brussels, Belgium.
